Summary

A Final-year Computer Engineering student passionate about **Machine Learning, Generative AI, Data Analytics, and AWS**. Hackathon winner with hands-on experience of **Machine Learning, Deep Learning and Data Analytics**. Self-driven problem-solver with strong leadership, teamwork, communication skills, and a commitment to continuous learning.

Education

MIT Academy of Engineering, Pune	2022 – 2026
B.Tech in Computer Engineering	CGPA: 8.1
Kendriya Vidyalaya, O. F. Varangaon	2021 – 2022
CBSE Class XII	81.6%
Orion CBSE School, Jalgaon	2019 – 2020
CBSE Class X	90.8%

Skills

- **Machine Learning, Deep Learning, NLP**
- **Cloud/DevOps:** AWS, Git, GitHub, Terraform
- **Data Analytics:** PowerBI, Tableau, Excel
- **DSA:** C++
- **Web Dev:** HTML, CSS

Experience

- Machine Learning Intern, IPride Solutions and Services** 28 June - Present
- I built a stock analysis platform that uses AI. It provides real-time sentiment insights.
 - I also developed a college attendance system using face recognition.
 - Now, I am working on number plate detection for vehicle entry.
- Frontend Web Development Intern, Ammunition Factory Khadki** 8 Jul - 7 Aug 2024
- Built interactive forms and Power BI dashboards that improve engagement and reporting.
 - Deployed Maya OS on 30+ machines to improve cybersecurity.
 - Supported internal query resolutions and documentation.

Projects

- CrayFit: AI Diet Planner** *Deep Learning, MERN, Web APIs*
- Developed an AI-driven diet recommendation system achieving **88% accuracy in 5 epochs**, generating **non-repetitive 7-day meal plans** with integrated **doorstep delivery using MapBox, Stripe, and Kafka**; **post-project surveys showed 79% users benefited in achieving health goals**.
- Sentiment Analysis using Python** *NLP, Data Analysis, Google RSS*
- Built a financial sentiment analysis system achieving **84% sentiment accuracy**, fetching real-time data from multiple APIs, applying **NLP techniques**, and visualizing market-aligned sentiment trends using Matplotlib.
- EdTech Platform with Career Counseling Chatbot** *Machine Learning, NLP, Web Development*
- Designed an EdTech platform with an **NLP-powered career counseling chatbot** that analyzes student conversations to recommend suitable careers and personalized courses based on interests, skills, and academic background.

Publications

- AN AI BASED DIET PLANNING SYSTEM FOR INDIVIDUALS** 04 July 2025
- IPR Published under Patent Application**
- An AI-Based Diet Planning System for Individuals, Ordinary Application, Bio-Medical Engineering, filed April 2025.

Certifications

- AWS Cloud Foundations
- AWS Cloud Architecting
- Simplilearn: Deep Learning
- Cloud Computing (NPTEL)
- Software Testing (NPTEL)
- Infosys Power BI

Achievements

- Datathon 2025 - 2nd runner-up:** Blockchain carbon credit marketplace.
- VytoHack - Finalist:** Deep learning raga prediction with CNN, YOLO.
- Atos Srijan 2025 - Jury round:** Content creation for brand campaigns using GenAI.

Leadership

- ASSCET Member** Aug 2023 – Present
- Student Association of Computer Engineering
